

KAW VALLEY ENGINEERING

FOR IMMEDIATE RELEASE:

KVE Welcomes Two Summer Interns In Junction City Office

Junction City, Kansas, June 9, 2009

Kaw Valley Engineering, Inc. (KVE), provider of consulting civil and geotechnical engineering services, is pleased to welcome two summer interns to its Junction City office: Regina “Gina” Newsham and Tim Coles.

Gina Newsham will intern in the Business Development and Marketing department. In this role she will assist in the design of marketing materials and preparation of client proposals. Gina will graduate from Kansas State University in May 2010 with a Bachelor’s degree in Journalism and Mass Communications with a focus on Public Relations. Gina’s hometown is Rossville, Kansas.

Tim Coles will work as an Engineering Tech in the Materials Testing Lab. In this role he will perform field and laboratory tests on soil, asphalt and concrete. This is the third summer that Tim has interned in this department. Tim, a native of Chapman, just completed his second year in the Civil Engineering program at Kansas State University. He will return to K-State this fall.

KVE President Leon Osbourn, P.E., R.L.S., said, “We are pleased to welcome Tim Coles back again this summer. Last summer he earned his American Concrete Institute (ACI) certification, so he will be able to perform additional concrete tests this summer. This is the first year that we have offered a summer internship in our Business Development and Marketing department. Gina is experienced with the Adobe InDesign software so she will be able to contribute to the department right away.”

About Kaw Valley Engineering:

KVE is a full-service civil engineering firm, providing civil engineering, geotechnical, environmental, surveying, steel inspection, welding inspection, construction inspection and materials testing services throughout the Midwest. KVE has offices in Junction City, Kansas; Lenexa, Kansas; Kansas City, Missouri; and Salina, Kansas.

Kaw Valley Engineering – Designing the ground where we live, work and play since 1982.
